CARE PERFORM®

Focus on customers and patients, not paperwork

Care Perform® is a workflow management solution for pickup and delivery of medical equipment that improves productivity, increases cash flow and shortens billing cycles, while establishing superior customer service.

Providing indisputable proof-of-delivery, Care Perform® ensures accurate documentation of all equipment, supplies and services delivered to and received from patients/customers while shortening the time between delivery and order confirmation for faster billing.

› Complete proof-of-delivery data includes:

- Patient/customer electronic signature capture
- Time/date stamp
- Item identification (including recognition of serialized items, non-serialized items, lotted items, generic items, etc.)
- Transaction type (e.g., sales, rentals, exchanges, etc.)
- Order detail such as quantity, unit charge amounts and Healthcare Common Procedure Coding System (HCPCS) codes (item scan codes)
- Patient/customer contact information, such as patient ID and delivery address
- Patient/customer healthcare insurance verification
- Patient/customer co-pay amounts

The Care Perform® Advantage:

**Accurate Orders, Delivered
On Time — Every Time!**

A Growing Industry Trend

Frost & Sullivan reports MRM solutions deliver fast, hard-dollar ROI to healthcare organizations through significant reductions in operating costs, increased employee productivity, and improved customer relationships.
